Mr Robin is a Melbourne-trained Orthopaedic Surgeon who treats all elective and traumatic orthopaedic conditions. He has developed a lower-limb subspecialty interest, specifically in the treatment of sports-related and degenerative conditions of the hip and knee as well as hip dysplasia and patellar stabilisation in the young and sporting adult population. Mr Robin is an advocate and proponent of the latest early mobilisation and rapid recovery techniques in appropriate and motivated patients.

### **Sub specialty interests include:**

- Hip Arthroscopy (for femoro-acetabular impingement (FAI), hip dysplasia)
- Knee Arthroscopy
- Primary and complex primary total hip replacement including patient-specific, 3-D modelled total hip replacement
- Revision hip replacement
- Robot-Assisted Unicompartamental knee replacement (including patello-femoral replacement)
- Total knee replacement including patient-specific, 3-D modelled total knee replacement
- Revision knee replacement
- Knee Ligament Reconstruction (e.g. anterior cruciate ligament) and meniscal surgery
- Patello-femoral stabilisation surgery (e.g. medial patello-femoral ligament reconstruction and tibial tubercle osteotomy)
