

Holmesglen Lung Function Laboratory is located within Holmesglen Private Hospital. We are staffed by experienced scientists and we offer a wide range of lung function tests including:

- Spirometry (Pre & Post Bronchodilator)
- Diffusing capacity / Gas transfer factor measurement
- Maximal inspiratory and expiratory muscle pressures
- Bronchial provocation challenge test / Mannitol challenge test
- Lung volume measurement / Body plethysmography / Body Box
- FeNO (Fractional exhaled nitric oxide)
- High altitude simulation test – *coming soon**
- Oxygen assessment and 6-minute walking test – *coming soon**

All services are bulk billed via Medicare and are at no cost to the patient.

Please contact our friendly staff should you need any assistance.

****Please note Southern Region Respiratory Service is now closed.**
